

GET THE MOST OUT OF YOUR MOTOROLA XOOM.

Verizon Wireless is pleased to announce a new software update, HMJ37, for your Motorola XOOM™.

Verizon Wireless and Motorola encourage you to download this update.

Web Browsing and Data Access

- + Access and stay connected to Wi-Fi networks with added Proxy support.
- + SSL data transfer with websites is now supported.
- + WPA Pre-Shared Key pass-phrases are now supported when using the device as a Mobile Hotspot.
- + Supports Google Widevine DRM and HDCP.

Email and Messaging

- + POP3 HTML emails will display in their entirety.

Voice Features

- + Bluetooth® is now supported in Google Talk™.

Additional Device Features

- + Rent movies through Android Market™ and watch them instantly on the Xoom, stream them to other Android devices and even download them to play on-the-go. Choose from thousands of movies, starting at \$1.99.
- + Encrypted passwords can be entered during power up.
- + Calendar events will remain up to date after an installed software update.
- + Application storage errors will not appear unless the device has reached maximum storage capacity.
- + Safely dock the MOTOROLA XOOM into the docking adapter without interruption.
- + Ability to add and use a Bluetooth mouse.
- + A shortcut key for the Bluetooth keyboard has been added.
- + View and import pictures from digital cameras with Picture Transfer Protocol.
- + When using the device in accessibility mode, menus will no longer prompt with sounds.

MOTOROLA XOOM
